**STATEMENT OF THE SUBSTANCE  
OF EXAMINER INTERVIEW**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Commissioner:

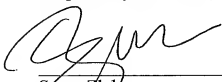

A first interview was conducted on November 29, 2010. During this first interview, the Examiner indicated that he was willing to allow the application if claim 35 were amended to incorporate the limitations of claim 40, and if all withdrawn claims as well as claims 67-69 were cancelled.

After consideration of the Examiner's position, Applicant's agent respectfully declined on December 1, 2010 by leaving a voice mail for the Examiner, pointing out Applicant's belief that the subject matter of claim 35 (as presented in the Appeal Brief filed September 24, 2010) was patentable.

A second interview was conducted on December 2, 2010. During this second interview, the Examiner indicated that he was willing to allow claim 35, but that certain minor amendments were needed, namely to the expressions "operable to communicate" and "operable to deliver". A similar amendment was requested in claim 45. The Examiner still requested cancellation of claims 67, but during the interview acknowledged that claim 68 should be allowable because it contains limitations similar to those of claim 35. The Examiner also requested a terminal disclaimer having regard to US Patent 7,774,602.

After consideration of the Examiner's position, Applicant's agent accepted to make amendments to claims 35 and 45, which are accurately reflected in the Examiner's amendment included with the Notice of Allowance. In addition, in an email on December 2, 2010, Applicant's agent suggested an amendment to claim 67, which is accurately reflected in the Examiner's amendment included with the Notice of Allowance. Applicant's agent also agreed with the cancellation of the withdrawn claims and indicated agreement with the filing of a terminal disclaimer.

Respectfully submitted,
